

KARI EATON

SAGE INTACCT IMPLEMENTATION CONSULTANT

OBJECTIVE

To support clients as they migrate into cloud accounting solutions and help them streamline and improve processes and automate workflows.

EXPERIENCE

SAGE INTACCT AND ACCOUNTING CONSULTANT

SELF EMPLOYED

(2022- CURRENT)

As an independent consultant I assist non-profit organizations and mega churches with back-office accounting including journal entry posting, fixed asset management, bank reconciliations, and training staff. I also maintain their Sage Intacct platform and assist with adding new entities, writing reports, and integrating with third party solutions.

SENIOR IMPLEMENTATION CONSULTANT

MicroAccounting Solutions

(2018-2022)

As a senior Sage Intacct consultant, I was responsible for migrating client financial information from legacy systems to Sage Intacct. I advise on the best use of dimensions, consolidation of accounts, and workflow methods within their new system. I provided client training on new systems both remotely and in person. I served as primary project manager on my projects to ensure timely delivery of the project, as well as post go live support for all clients. I assist in client report writing and dashboard creation needs. Additionally, I held client webinars to continue the education and support of our clients.

TECHNOLOGY SERVICES SUPERVISOR

Salmon Sims Thomas and Associates

(2014-2018)

As technology services supervisor, I worked directly with clients and their legacy accounting platforms. I managed a team of technologists to facilitate data mapping, platform implementation and integration, process streamlining, report writing, and client training. I worked closely with the primary accounting team to ensure client success as they transition into Cloud computing. I attended trade shows and conferences as the primary face of the technology services sector.
